

The Fairing of the Keel Box Area

After request on few sailors regarding the fairing of the keel box area, we remember that the class rule C.7.1.e is very simple: you can add material only around the Delrin. To be more accurate see the 2 drawings below.

Furthermore it is necessary remember that it is not allowed fill the slot of the screws: Melges24 Class rules are Closed Rules: anything not specifically permitted by the class rules is prohibited.

MELGES24 CLASS RULE C.7.1.(e)

Fairing the keel box area or keel box Delrins is prohibited. The Delrin may be bedded in on optional material and adjusted to fit flush with the underside of the hull.

MELGES24 CLASS RULE C.7.1.(e)

Fairing the keel box area or keel box Delrins is prohibited. The Delrin may be bedded in on optional material and adjusted to fit flush with the underside of the hull.
