

MELGES BUILDERS REPORT

Dear Melges Team,

Melges is celebrating 75 years of boat building in the upcoming year of 2020. A major part of the company's success is the Melges 24. A boat that is still ahead of its time. The simplicity, the unique appearance, the high-quality build and construction along with a strong class organization makes the Melges 24 one of the most popular sport boats in the world. The continued success proves this.

As a builder we constantly look at improving our quality so that we can meet our customers' expectations. The quality finish and attention to detail through the build process sets the Melges product apart from others in the world.

Melges will build up to 8 new Melges 24's this year and we have potential interest for more. The class is strong but what we see most is the strength of Corinthian Sailing in the Melges 24. This has rejuvenated the racing here in the USA for sure and we see more business and interest in the boat because of it. All of us need to continue to hype up the Corinthian Sailing in the Melges 24.

Melges continues to plan a strong production schedule and we will be out at the events pushing new boat sales.

Please email me with any further questions or specifics you may have so that the Melges Team can assist. andy@melges.com

Sincerely,

Andy Burdick, Melges Performance Sailboat
