**Title of the motion,
amendment, nomination**

Change requirement for a P/A system to the use of an electronic notice board as the primary method of communication with competitors during a championship

Topics concerned

	Constitution		Events
	Class Rules		Technical Issues
X	Regatta Regulations		General Policies
	Nomination		

Objective of Change: Modify requirement for P/A system to use of an electronic notice board when boats cannot be moored in the same location (and even if they are) as P/A systems are not the modern method of communication

Changes:

From: A1: "if all boats cannot be grouped in the same area, they shall be within a short walk distance from the event regatta center/notice board, ~~and be in earshot of the P/A System~~".

From A3: "~~There shall be a sufficient PA system audible throughout the main competitor social areas and the moorings.~~"

From R11: "Race Office...it shall contain:....~~the base station and mike for the PA system~~"
