

2021 ACTIVITY REPORT

Although the pandemic situation and the related economic problems have negatively influenced the propensity of the owners to resume a normal activity, the Italian Class has reached important numbers collecting no. 21 full members and a total of no. 23 boats.

For the same reasons as above, participation in the events has suffered a sharp decline mainly due to the fear of many to take part in public events, leading many Italian and foreign teams to postpone any recreational and sporting activity to next year.

We are sure that starting from 2022, when the health situation will be less uncertain, the numbers of participants will rise again.

Even in this problematic situation, the Italian Class successfully carried out no. 6 events, part of 2021 Melges24Tour, offering the possibility to all European teams to sail on Melges24 in beautiful locations supported by the excellent organization of the clubs involved.
