## 2023. Class Report

### Membership

Croatian Melges 24 Class Association (CROM24) is the youngest and smallest National Class Association in the IM24CA. Despite this, CROM24 managed to grow in number of active boats to second largest fleet in the world. Total number of active boats is 24, with a good chance to grow even more with more sailors showing interest to join the CROM24. We can feel that by seen actual class member's starting to buy new boats.

### Results

The World Championship in Denmark was again blast, getting home with two medals, World title in Corinthian division and third place in overall from Mataran24 team was confirmation of high quality of racing among CROM24 class. To add, Panjic taking 9th place overall putting two CRO teams in top 10 on the overall ranking and Team Razjaern (finishing 13<sup>th</sup>) taking part with brand new build boat in the world at that time.

### Events

CROM24 with Sailing Club Split is honored to organize European Championship 2024. in Split, which we believe it will be well attended event with expectation of around 60 boats. Class will use this event as showcase to utilize a membership grow and to strength class activities for the future.

Our plan for next season is to continue with our CROM24 Cup events, with 7 regattas scheduled in racing calendar. We are also hopping that we will get a chance to host more events from ESS. We thing we deserve that chance in terms what we achieved in very short period of time.

### Future

Our main objective for the future is to host World Championship at first available opportunity.
